

provincial plants and landscapes

native and ornamental grasses, sedges, rushes, lilies, shrubs, wetlands species and biofilters
suitable for commercial and residential water wise landscaping, revegetation and nursery production.

sun and frost hardened, drought tolerant, easy care plants grown in chemical free outdoor spaces

genera and species name	common name	qty avail.	price per kg.	order qty	total price
native grasses					
<i>Amphibromus nervosus</i>	Swamp Wallaby Grass	5kg	\$ 490.00		
<i>Austrodanthonia mix</i>	Wallaby Grass	2kg	\$ 330.00		
<i>Austrodanthonia caespitosa</i>	Wallaby Grass		\$ 400.00		
<i>Austrodanthonia duttoniana</i>	Wallaby Grass	6.5kg	\$ 370.00		
<i>Austrodanthonia eriantha</i>	Wallaby Grass		\$ 400.00		
<i>Austrodanthonia longifolia</i>	Wallaby Grass	2kg	\$ 410.00		
<i>Austrodanthonia setacea</i>	Wallaby Grass	1kg	\$ 400.00		
<i>Austrostipa bigeniculata</i>	Spear Grass		\$ 350.00		
<i>Austrostipa densiflora</i>	Spear Grass	4kg	\$ 350.00		
<i>Austrostipa scabra pure</i>	Spear Grass	4kg	\$ 350.00		
<i>Austrostipa scabra in stem</i>	Spear Grass	100kg+	\$ 90.00		
<i>Bothriochloa macra</i>	Red Leg Grass	40kg	\$ 280.00		
<i>Chloris truncata</i>	Windmill Grass	5kg	\$ 490.00		
<i>Dichelachne crinata (florets)</i>	Purple Plume Grass	2kg	\$ 540.00		
<i>Imperata cylindrica (florets)</i>	Blady Grass		\$ 560.00		
<i>Joycea pallida</i>	Red Anthered Wallaby Grass	40kg	\$ 330.00		
<i>Microlaena stipoides</i>	Weeping Grass	5kg	\$ 310.00		
<i>Pennisetum alopecuroides</i>	Swamp Foxtail	2kg	\$ 350.00		
<i>Phragmites australis (pure refined florets)</i>	Common Reed	5kg	\$ 210.00		
<i>Poa helmsii</i>	Broad leaved snow grass	2kg	\$ 490.00		
<i>Poa labillardieri (ex.cultivar)</i>	River Tussock	15kg	\$ 310.00		
<i>Poa labillardieri (wild)</i>	River Tussock		\$ 310.00		
<i>Poa poiformis</i>		2kg	\$ 370.00		
<i>Poa sieberiana</i>	Snow Tussock	3kg	\$ 490.00		
<i>Themeda australis (pure/awnless)</i>	Kangaroo Grass		\$ 1,050.00		
native daisies					
<i>Ammobium alatum</i>	Tall Ammobium		\$ 840.00		
<i>Bracteantha bracteata</i>	Yellow Everlasting		\$ 770.00		
<i>Bracteantha viscosa</i>	Sticky Everlasting	1kg	\$ 840.00		
<i>Calocephalus citreus</i>	Lemon Beautyheads		\$ 840.00		
<i>Chrysocephalum apiculatum</i>	Common Everlasting	2kg	\$ 840.00		
<i>Chrysocephalum semipapposum</i>	Clustered Everlasting	500g	\$ 910.00		
<i>Helichrysum rutidolepis</i>	Pale Everlasting				
<i>Leptorhynchus squamatus</i>	Scaly Button		\$ 1,050.00		
<i>Leucochrysum albicans (white form)</i>	Hoary Sunray	3kg	\$ 910.00		
<i>Leucochrysum albicans (yellow form)</i>	Hoary Sunray	200g	\$ 910.00		
<i>Vittadinia muelleri</i>	New Holland Daisy	4kg	\$ 840.00

native seed collection and supply

Every year we collect literally millions of native seeds from dozens of different locations in the ACT, NSW + VIC. Seed availability varies annually. If species you require are not on our current list, please contact us to discuss your requirements as we are now entering a new collection season. A forward order will ensure you receive the stock you need when you need it.

expert seed collectors

Provincial follow best practice Flora Bank guidelines that show the utmost respect for the areas in which we collect and for the parent plants we collect seed from. The new generation of Provincial seed collectors have been trained by our Grasslands Ecologist who has spent 15 years working with native plants and reading the seasons. Can you imagine how much knowledge is gained in that time? We know what to collect and when, where to collect it, how to collect it and what to do with it once we've got it.

seed use and pricing

Much of the seed we collect is used for our own horticultural production, others for specific projects requiring provenance plants. Whether you'd like to establish a native lawn or you're looking for seed to propagate your own plants, please contact us to check on current seasonal availability or to arrange contract collection. Native seed prices are per kilogram with a minimum order of 100g per species. Prices may vary annually dependant on the viability of the collection season.

vast range of species

The Provincial nurseries have over 4 acres of toxic chemical free outdoor nursery space with more than 500 000 plants on the ground (and expansion in progress!). A bonus is that we operate primarily on renewable energy sources and we recycle and reuse all manner of materials.

We have a comprehensive range of 250 species of native and ornamental grasses, sedges, rushes, lilies, flowers, trees, shrubs, bio-filters for reed beds and wetland plants with a focus on drought tolerance and Flora for Fauna.

Our plants are grown from provenance-collected seed using best practice collection and propagation techniques. Provincial also has the largest range of the highest quality Grass Trees available in Canberra. When undertaking a revegetation project it is often appropriate to combine re-seeding with the planting of cell or tube stock for more immediate stabilisation of an area.

Please contact us to discuss your specific project requirements to ensure the best possible outcome.

revegetation and rehabilitation expertise and capability

Provincial has extensive experience and expertise in revegetation, having successfully undertaken multiple projects over the past 9 years. We can manage revegetation projects from initial site assessment and recommendations through to site preparation, seed or plant supply and installation and follow up maintenance.

We can plant and improve degraded sites, undertake erosion control, deal with stormwater runoff issues, rehabilitate waterways and create wetlands.

our successful revegetation record

Our proven record in large-scale ecological restoration sees successful establishment of diverse plant communities, increased biodiversity and habitat creation, soil, air and water improvement. With proper site preparation, appropriate timing and watering in of planting, we achieve plant survival rates of at least 95%.

Our revegetation teams:

- can plant projects of any scale
- have site managers experienced in horticulture and ecology
- have the ability to transport and supply large plant numbers
- display the highest standards of Occupational Health and Safety procedure
- use efficient, modern planting techniques
- achieve high plant survival rates
