a bit about us

Provincial is a National Award Winning business, recognised for our professional and ethical business practices and environmental contributions. We are also certified Carbon Neutral. Our strong environmental and business credentials set us apart as leaders in our industry.

Provincial's dynamic and multi-disciplinary team conserves, restores and beautifies natural, public and private environments. Our integrated range of contemporary, water conscious, eco - friendly landscape products and services can see your project through from concept to completion.

Provincial is the source for ecologically sensitive environmental design, sun and frost hardened plants, a boutique selection of decorative pots, an exclusive reconstituted sandstone paving collection, handcrafted sculpture + garden décor, planting of low water use / low maintenance residential and urban gardens (xeriscaping), revegetation and wetlands creation.

We specialise in the creation and remodelling of environmentally suitable gardens with style and the restoration of degraded landscapes back to health. Contact us to discuss your landscape needs.

We're the only landscaping company in SE NSW and the ACT that grow our own plants in house. Our plants are grown in pesticide and herbicide free outdoor spaces that operate on renewable energy and use harvested rainwater.

Provincial improves lifestyle, increases home value and restores natural environments for future generations with a minimal carbon footprint. Provincial provides what you need when you need it - concept to completion - saving you time, stress and money having to shop around.
